### Restricted Reporting

This option is recommended for victims of sexual assault who wish to confidentially disclose the crime to **specifically identified individuals** and receive medical treatment and counseling without triggering the official investigative process.

Service members who are sexually assaulted and desire restricted reporting under this policy must report the assault to a Sexual Assault Response Coordinator (SARC), Victim Advocate (VA), or a healthcare provider.

\*Victims may elect to make a Restricted Report of sexual assault at all times, except when they reported to law enforcement, previous filed unrestricted report for the same incident. (Ref. DoDI 6495.02 Nov10,2021)

### Unrestricted Reporting

This option is recommended for victims of sexual assault who desire medical treatment, counseling and **an official investigation of the crime**. When selecting unrestricted reporting, you should use current reporting channels, e.g. chain of command, law enforcement or report the incident to the Sexual Assault Response Coordinator (SARC), or request healthcare providers to notify law enforcement. Upon notification of a reported sexual assault, the SARC will immediately assign a Victim Advocate (VA). At the victim's discretion/request, the healthcare provider shall conduct a sexual assault forensic examination (SAFE), which may include the collection of evidence. Details regarding the incident will be limited to only those personnel who have a legitimate need to know.
